Class IV Science — Parts of a plant

Answer in a word or a sentence.

Name: _____ Date: _____

1. Which part of the plant holds it firmly in the soil?

2. Which part makes food for the plant?

3. What carries water from the roots to the leaves?

4. What do plants need to make food? Name three things.

5. Which part of the plant becomes the fruit?

6. Name one root we eat.

7. Name one stem we eat.

8. Why should we not pluck leaves for fun?

Answers

For parents and teachers: check the method as well as the answer.

1. The root
2. The leaf
3. The stem
4. Sunlight, water, air (carbon dioxide) — and the green colour (chlorophyll) in leaves
5. The flower (after pollination)
6. Carrot, radish or beetroot
7. Potato, ginger or sugarcane
8. Leaves make the plant's food; the plant gets weaker
